

ASHE-HOUSTON SECTION'S ANNUAL OUTSTANDING HIGHWAY ENGINEERING AWARD

ELIGIBILITY

Any public/private organization engaged in the practice of highway and transportation engineering/construction in the greater Houston area.

GENERAL CRITERIA

Entries must be submitted to ASHE through a member of the Houston Section.

1. Projects entered in the competition must be within a 200-mile radius of Downtown Houston.
2. Construction of projects must have been substantially completed before December 31, 2023.
3. Each entry must be prepared in accordance with these Criteria (Page 1) and Entry Form (Page 2).
4. See Page 3 for **Rating Guidelines**
5. Firms may submit more than one entry.
6. The ASHE Awards Committee reserves the right to determine eligibility of all entries.
7. Firms are allowed to submit entries in multiple categories. However, only one winning entry per firm is allowed.

SUBMISSION

Electronic Option:

Email completed application to:

ASHE Past President: Blair Stocker, P.E. at

bstocker@gfnet.com AND secretary@ashehouston.org

Mail-in Option:

Send the original and four (4) copies to:

Blair Stocker, P.E.

Gannett Fleming | TranSystems

3100 West Alabama Street Houston,

TX 77098

AWARDS

The owner, the designer and the contractor of the winning entry will receive a plaque acknowledging their achievement. Additional plaques may be purchased.

The presentation of awards will be at:

ASHE Awards & Scholarship Gala on **January 10, 2025**, at the Petroleum Club of Houston.

Two of the winning projects will be recommended to ASHE National for consideration of Project of the Year.

CATEGORIES

Any highway/transportation construction project within the following construction cost categories.

CATEGORY A:

\$20,000,000 or less

CATEGORY B:

Greater than \$20,000,000

JUDGING

Entries will be judged on the basis of the work performed by the entering firm only and according to the weighted Rating Guidelines on the third page.

DEADLINE for Entries is November 25, 2024, by 2:00 PM

ASHE Houston Section
Annual Outstanding Highway Engineering Awards
Evaluation and Rating Guidelines

Each project submitted should address (and will be rated on a scale of 1-10) for the following weighted criteria:

1. Complexity 25%

- Does the entry involve very complex criteria?
- Were extraordinary problems of site, location, hazardous conditions, project requirements or similar elements present?
- Does the entry require out-of-the-ordinary technology or ingenuity?

2. New application of Existing Techniques/Originality/Innovation 25%

- Does the project include unique or different techniques, materials, or equipment?

3. Social/Economic Considerations 15%

- Does the entrant's solution bring into play secondary benefits (i.e., are additional benefits realized as a spin-off)?
- Does the entrant's role provide society with any useful advancement of social or economic benefits?
- Is the public health, safety or welfare enhanced as a result of the entrant's role in the project?

4. Safety 15%

- Discuss and explain improvements to safety

5. Aesthetics and Sustainable Features 10%

- Does the entry utilize features that support environmental benefits?
- Were there architectural elements included in the project?

6. Meeting and Exceeding Owner's/Client's Needs 10%

- Is it an economical and cost-effective solution?
- How did the final cost relate to original budget estimate and client's schedule?
- How closely does the entrant's solution meet the total goals of the owner/client?
- Does the entry meet and justify its original concept?

Submission Format:

1. The project narrative should not exceed 1500 words
2. Clearly explain the roles of all consultants on the project
3. Use a maximum of ten (10) photos, with captions, reflecting unique features of the project

Additional requirements for mail-in option:

4. Provide five (5) bound copies
5. Any supplemental brochures, articles, etc., will not be considered.
6. None of the submitted material will be returned.
